# FOR A WAR

By MIKE NEWBERRY

I posed as a Jew hater. Going to a dealer in racist and anti-semitic books, that I know, whose "shop" is a semi-basement apartment open to private customers and groups, I asked him if he had any "good books on the Jews."

• "Have you read The John Franklin Letters?" he asked.

• "Is it about the Jew?" I asked.

• "Better than that," my friend said; "It tells you how to fight them."

"No! No! It's not about fighting with politics," my "friend" assured me. "It's about fighting them with guns!"

of course I had read The John  
Franklin Letters. It describes  
how a fascist "underground"  
would be established to over-  
throw the United States govern-  
ment. It is a manual of arms for  
such a fascist "underground" and  
it is a best seller in rightist cir-  
cles.

I leafed through the book  
with feigning interest. But I grimaced  
and sourly shook my head.  
"This isn't about the Jews",

My "friend" laughed. "Hell, the guys who wrote it worked for the government," he said. "You see? Have to watch their step. See where they talk about n-----s? Well, Jews or n-----rs, what's the difference? It's all the same."

**THE JOHN FRANKLIN LETTERS** was written by two "former" officers of the Central Intelligence Agency. Late Munson, President of the Bookman's, the Anti-Semitic Book publisher and distributor who printed this book, claims that the Bookman's asked two Central Intelligence Government Intelligence officers to write the book. He said the book is a secret. He said the book is a million several hundred copies weekly in every country. Union of the foreign countries."

What is this book about?  
It is a "friend and foe" book  
told of how "Mafiosi," "Klans",  
"Communists," "Negroes and Puerto Ricans",  
"Liberals," and the "Supreme  
Court" betray America to the  
United Nations "bureaucracy".

Civil War really began, says The John Franklin Letters. In 1932, when "the many vicious and dangerous wars among the Negroes and Puerto Ricans" began "attacks on the police" "We already have a condition of civil war in our large northern cities if goes on to say; "And almost all of those who cause trouble are Negro or Puerto Rican."

Whipping up this racism to a hysterical pitch the book purports to describe how "white" citizens will be deported to "slavery in Africa." Laws will be passed making racism a crime. "Vile mobs" of Negroes will loot the cities and drop atomic bombs on all who resist the "Anti-Fascist Peoples Democracy" that is established.

Here is an American Mein Kampf! The course of action it recommends is a tactical guide that might well have been written by Hitler.

"Petriotic" underground armies should be established, say The Franklin Letters, named the "Rangers" who will train to assassinate, sabotage and overthrow the "Peoples Democracy." It goes on to detail exactly how this "guerilla" military arm should work.

**UNLIKE** old fashioned American fascist secret armies, such as the Silver Shirts, the Black Legion, or the German American Bund, this modern version is no lunatic fringe nightmare. It has the backing of top-

ary are: The John Birch Society, the National Anti-Communist Council, General Alfred M. Sweeney, Brigadier General Lawrence Hunter, former personal aide to General MacArthur, are "Personal Advisors" has highly recommended this manual of arms. So too has every rightist and neo-Nazi publication in the country.

Ministry and the Pentagon officials have clustered around the neo-fascist publications and groups in such numbers that they could easily be their own party. General Staff, some of the nation's most prominent military leaders are openly associated with these groups. In some cases they actually direct them.
